

## New Land Acquired...

Herrco Cosmetics is happy to announce the acquisition of a plot of industrial land opposite our site for future development. This new land will enable Herrco Cosmetics to expand in keeping with our current growth trajectory, while maintaining our current site which we have been based on for nearly 16 years. In 16 years at our premises, we have developed and expanded the original site to include four purchase-built manufacturing and warehousing facilities.

Our exciting new plans are to build a state of the art facility comprising: Warehousing, an innovative Research and Development laboratory, and manufacturing facilities.
