

QC Technologist

Herrco Cosmetics have an exciting opportunity for QC Technologist to join our team based in Halesworth, Suffolk.

Salary depending on experience
£22,000 - £23,000 per annum

Herrco Cosmetics is an innovative UK based cosmetics manufacturer, specialising in bespoke product development and formulation. For over two decades, we have been creating some of the most well-known cosmetic products in the UK, and year on year, our formulations are winning increasingly prestigious awards in top cosmetics ceremonies.

Manufacturing cosmetics and personal care products spanning skin care, bath, body, and aromatherapy products, as well as more niche markets such as mother & baby, Sun Protection factors and organics, Herrco is a thriving family business whose company philosophy is firmly rooted in providing flexible innovative solutions for our clients' production criteria.

We are now looking for a talented individual to come and join our team. We recruit people who believe in the things we do, people who are motivated, hardworking, and have a 'can do, will do attitude'.

Essential Requirements:

- Must have experience in a FMCG environment
- Experienced in Quality Systems – ISO 9001 & BRC
- Organising, planning, literacy & numeracy skills and attention to detail
- Excellent spoken, written communication skills
- The ability to work under pressure and to deadlines
- Good standard on Microsoft packages, particularly excel, outlook, word
- Good interpersonal and communication skills
- Ability to work as part of a team as well as be self motivated

The Job:

Assist the Quality Shift Supervisor in ensuring that all products are produced and filled to the customer approved specification and to an acceptable quality. Working in conjunction with other members of the team, Filling and Production staff. Carrying out testing on bulk manufactured products. Ensuring the company's QC procedures and policies are being followed in all areas at all times.

QC Technologist Job Duties:

- Carrying out line checks on filled finished products, checking packaging, labelling, batch coding, weights and general appearance are all correct
- Carrying out testing of bulk manufactured products ensuring they meet specification. Seeking advice from chemists when needed
- Carrying out inspections of components, labels and raw materials as required
- Maintaining Quality Control records
- Assisting the Quality Shift Supervisor to ensure a high level of quality control is maintained at all times and that all procedures are being adhered to
- Undertaking QC checks and producing reports (Daily, weekly, monthly, quarterly) for Hygiene in Production, Warehouse, Storage and Laboratory areas.
- Working with the Quality Shift Supervisor on Non Conformance Reports and Quality systems – ISO9001, BRC & ISO22716 with the view of continuous improvements
- Record keeping
- Calibration of pH meters and viscometers as required
- Maintaining the laboratory equipment

We currently operate a weekly rotating shift pattern 05:45 – 14:45 and 13:00 to 22:00 Monday – Friday. 41.25 hours per week.
